AI SALES AGENT

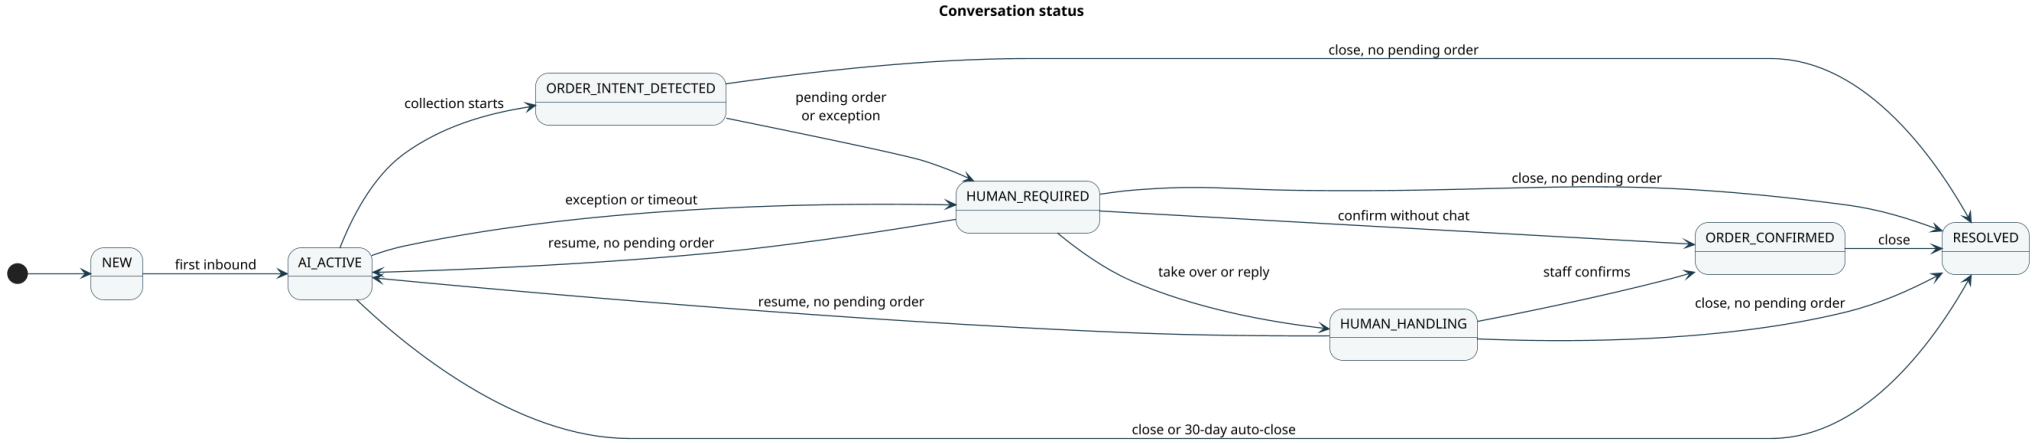

Additional UML diagrams

The conversation state machine and the package dependencies. Both add information that the other diagrams do not show as clearly.

Phase 1 MVP · 21 October 2026 · Prepared from the canonical documents in docs/

State machine

One status at a time. Close and resume require that no order is waiting for confirmation. Source: `submission/sources/diagram-source-files/15-state-conversation.puml`.

Packages

Allowed module dependencies. Orders notify Conversations with an event. Source: `submission/sources/diagram-source-files/16-package-modules.puml`.
